The School recognizes that the responsibility for student growth is shared among the students, their parents, faculty, and agencies and services in the broader community. As partners in this community, parents have an important role in fostering and supporting learning and acceptable conduct, as well as recognizing that the student must accept the consequences of his/her actions.

c. Glossary/Definitions

Bullying is typically a form of behaviour that is repeated, persistent, and targeted directly at an individual or individuals with the intention to cause (or should be known to cause) fear and distress and/or harm to another person's body, feelings, self-esteem, or reputation. Bullying occurs in a context where there is a real or perceived power imbalance.

Bullying intervention is a comprehensive and effective response to the bullying incident that takes into consideration all parties involved in the bullying incident. It should provide specific supports for the student who has been bullied, intervention for the student who was bullying, and strategies for responding to students who were directly observing the bullying incident.

Bullying prevention is a whole school approach that heightens expectations for a safe, caring and inclusive school climate. It includes a shared understanding about the nature and underlying causes of bullying and its effects on the lives of individual students and the school community.

Cyber bullying is the use of information and communication technologies, such as e-mail, cell phone and text messages, instant messaging, personal websites and online personal polling websites, to

support deliberate, repeated and hostile behaviour by an individual or group that is intended to or perceived to harm others.

Harassment is activity that ignores the dignity and worth of other human beings. It is conduct that embarrasses, intimidates, demeans or humiliates. Harassment is any offensive comment, conduct or gesture which one knows (or should know) is unwelcome. Harassment includes, but is not limited to:

- unwelcome remarks including jokes, innuendo or taunting about such things as a person's body, race, sexual orientation, gender identity and expression, attire, ethnic or religious origins;
- the creation of an atmosphere that makes one person or a group feel demeaned.

Positive school climate is the sum total of all the personal relationships within the school and is a critical component of bullying/harassment prevention. A positive school climate also includes the participation of the school community, including parents, as well as the broader community.

Sexual harassment is any unwanted sexual comment, look, suggestion, or physical contact made by a person who knows or ought to know that such action is unwelcome. Sexual harassment includes, but is not limited to:
