

Our family is delighted with the education our children are receiving at QMS. The outstanding academic program is just one element of an exceptional curriculum. Music, art, drama, physical education, technology, community service and leadership skills are integral to the program, at about the same cost as daycare. QMS does all this in a warm and caring family environment where our kids feel safe, valued, successful and happy.

Laurel Bachman & Paul Ceysens

There is plenty of room for learning and play around the gardens, lawns and woods of our beautiful 27 acre campus. The school motto, *Servite Fortiter*, means to serve bravely and carries a proud tradition of community service. At QMS your child is part of a caring family, learning and growing into a responsible member of the local and global community.

QMS students consistently perform at a high level according to yearly Foundation Skills Assessment (FSA) data.

QUEEN MARGARET'S SCHOOL

Co-educational - Junior School | Junior Kindergarten to Grade 7

Our Junior School offers boys and girls a caring community in an enriched learning environment. We recognize that the love of learning is established in a child's foundation years and believe our small classes and exceptional teachers, from Junior Kindergarten through Grade 7, set the tone for a positive attitude to learning that lasts a lifetime.

Our full-day Kindergarten includes drama, French, information technology, language arts, mathematics, physical education and science. Afternoon quiet time and generous doses of supervised play round out the day. Joint field trips and reading buddies connect "Kindies" to big kids and prepare them for the transition to Grade 1.

“

**Education is not the filling of a pail,
but the lighting of a fire.**

-William Butler Yeats

”

QMS

Clear expectations for behaviour and learning give our students a sense of belonging and accomplishment.

Small classes allow each student to be nurtured and challenged as the whole child develops socially, emotionally, intellectually and physically. Our curriculum provides students with tools to excel in environments where organization, motivation, collaboration and independence of habit and thought are expected. Specialist teachers engage students in art, French, information technology, instrumental and choral music and physical education. Choir, community service, drama, field hockey, soccer and our popular Clubs are offered as co-curricular programmes.
